

Report of Greg Reed on mmda

6/2/65

MMDA - 6/2/65

about 1/2 dosage

I found this drug not at all like any other; in the first place there were no appreciable distortions hallucinations or eyes closed imagery; second the mind was quiet; no words explanations comments theory's and rational thought subsided; third I was fully aware in present time especially during the first few hours fourth; despite the seeming sort action of the substance there is a time distortion which lasts over six hours which undermines ones judgment in driving a car; so at least 12 hours should elapse before driving is undertaken;

in use of O2-CO2 to potentate the action of the drugs there was a most remarkable effect As though a floor of some sort was dropped from beneath me and yet I was still supported and with this floor dropped a general feeling of anxiety of a free floating type which has been plaguing me for several months; later on a half hour or so later; when I was exploring the area newly empty of anxiety I felt it again for a few moments and then it dropped away for good; I was completely without tension or pressure of any sort; I expect that the effects are similar to that of a tranquilizer or an opiate (although I have experienced neither) except that there has been a long term change as a result;

MMDA Greg co2 and o2 used to set it off

I felt as if a floor of some sort dropped from beneath me and yet I was still supported; with this floor dropped a sense of free floating anxiety which had been plaguing me for several months

30 min later

when I was exploring the area newly empty of anxiety I felt it again for a few minutes and the it dropped away for good and I was completely without tension or pressure of any sort; like being tranquilized or morphine but I've never taken either; there has been a long term change as a result

6/2/65

this drug was like none I have ever taken; no hallucin noted and no distortions of what I looked at (I agree with the lack of distortion of outer objects or faces) second; the mind was quiet no words explanations comments theories or rational thoughts

fully aware in the present time especially in the first 3 hours

there is a time distortion 6 hours later WHICH UNDERMINES ONES JUDGEMENT IN DRIVING

I misjudged the traffic lites duration etc
